The new MUTCD requirements are to use the "AHEAD" and "ARROW" sign under the "TF-9900" sign to designate the crosswalk being AHEAD and the ARROW at the crosswalk.

"DG" is a Fluorescent Yellow/Green Prismatic Reflective Sheeting material laminated on .080 Aluminum. These signs meet the new federal highway administration regulation.

## Chain Link Fence Sign Mounting System NEW

**Prevent theft of outdoor signs**

- Fits standard 2" and 1.25" chain-link fences
- Made of sturdy die-cast metal
- Tamper-resistant hardware
- Flush mounts for safety
- Economical

This design is much safer than conventional mounting methods. The slotted bolt openings securely lock the bolt in place while allowing accurate alignment of any size sign.

**SG1** 3-piece cast metal mounting unit fits snugly into 1.25" industry standard diamond shaped hole chain link fence - includes nut & bolt.

**SG2** 3-piece cast metal mounting unit fits snugly into 2" industry standard diamond shaped hole chain link fence - includes nut & bolt.

# Easy to order custom signs

THE SIGNS OF A SAFE INDUSTRY

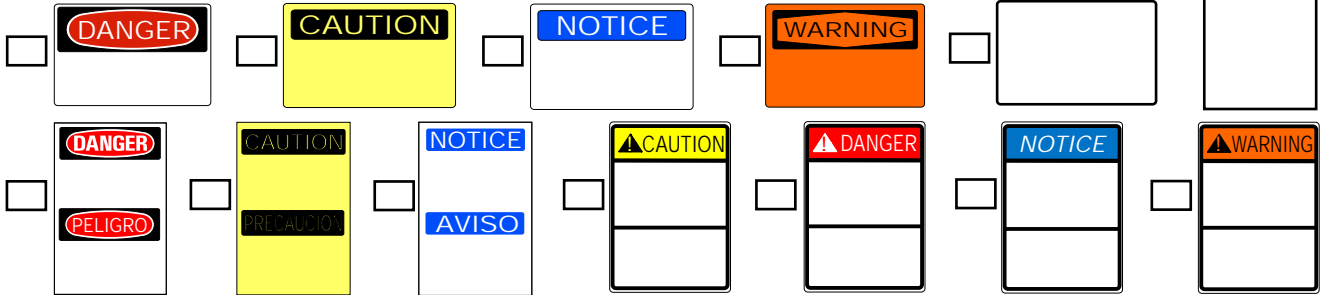

You need a custom sign and have no idea what it will look like. No problem! We have produced custom signs from scribbled ideas on paper. One step better is to use the form below that will guide you through this easy process of making choices. After you fax in the completed form, we will send you a proof for you to review and approve.

Photocopy this page  
Do not tear out!

Customer Name \_\_\_\_\_ Customer Purchase # \_\_\_\_\_  
 Company Name \_\_\_\_\_ Date \_\_\_\_\_  
 Street Address \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

**1 Select your sign style** - Pick an OSHA heading, ANSI heading or no heading at all. Please select.

**2 Select sign material** - For outdoor long-term use, the best choice is aluminum. If outdoor use is short term (6-9 months), plastic is the best value. We offer fiberglass for two environments - highly corrosive and where the conduction of electricity is a concern. For indoor use, the most economical choice is our pressure-sensitive vinyl (smoother surface equals better bond). The next would be plastic. Still the most long lasting sign would be aluminum. Please select a material.

ALUMINUM  PLASTIC  VINYL PRESS-ON  FIBERGLASS  OTHER \_\_\_\_\_

**3 Size** - Viewing distance legibility of the message will play a part in what size to pick. This chart (on the right) gives the average viewing distance of the height of a letter. Please consider this when ordering your sign. Please select a size.
